

Head-to-Head matches

What the Director needs to do to prepare.

How the captains start the match.

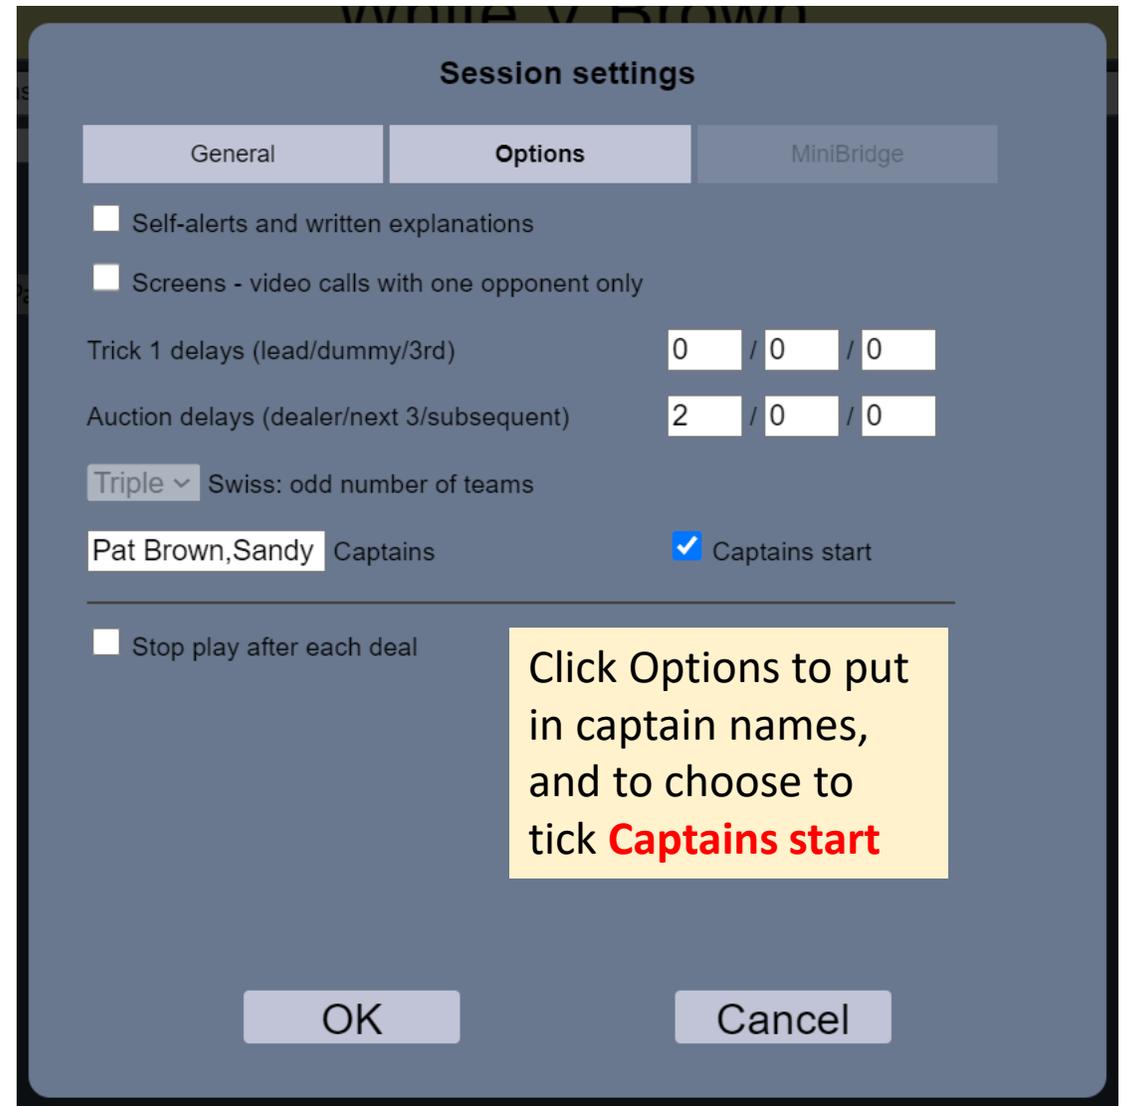

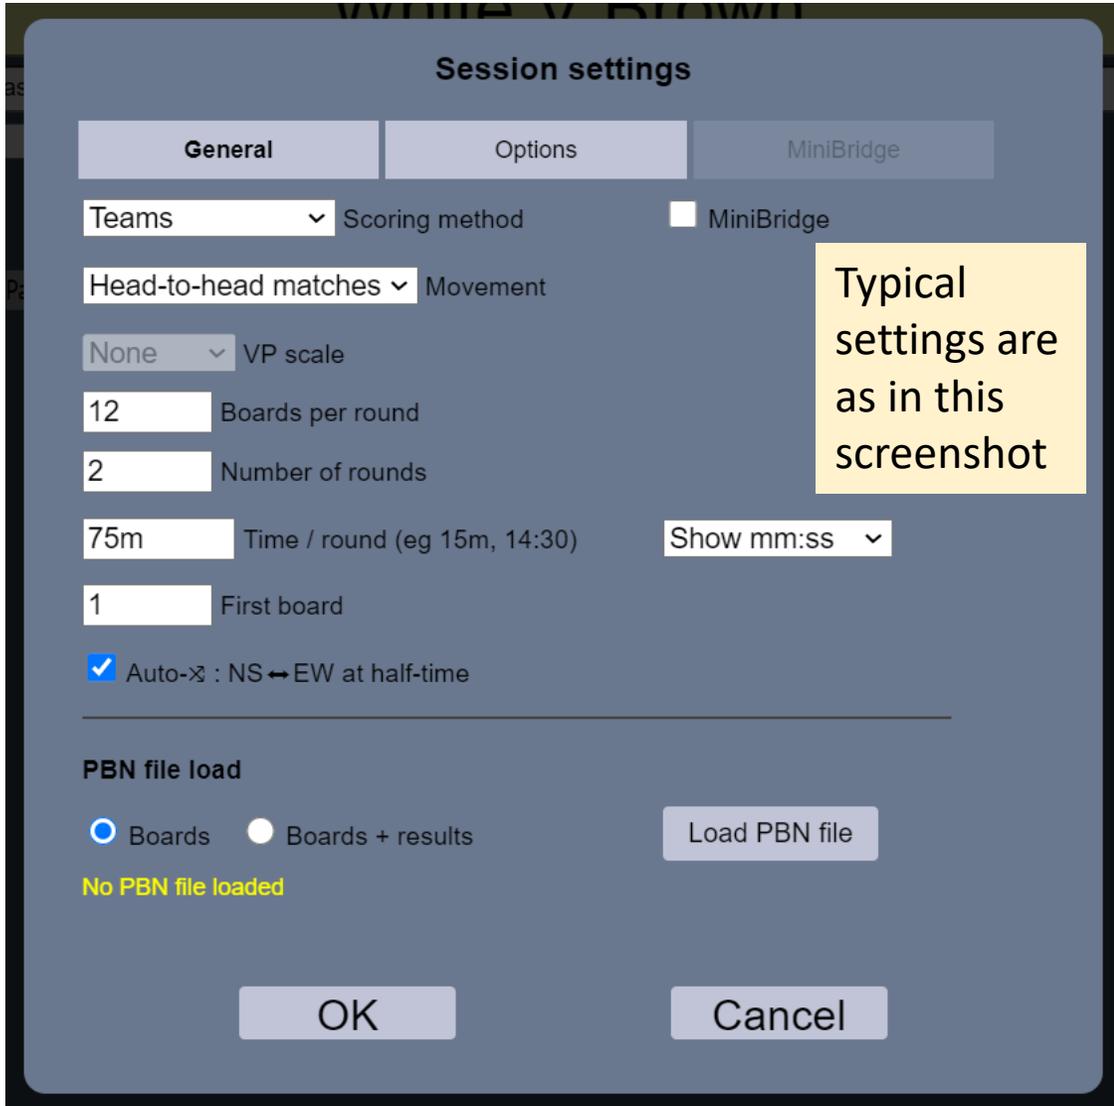

September 2024

- Both Captains need the instructions.
- There is a simpler set of instruction for Captains.
- The Session can be opened as soon as it is created.

Suggestions:

- Put the organiser's phone number in the white band. Remind the players of the RealBridge support numbers:

+44 (0) 794 232 2209 +44 (0) 747 555 7651

Remember to “Open the session”

When playing a match on RealBridge, it is essential that the two captains log in using their names as notified to the person who created the session, otherwise they will not be recognised as captains, and they will not be allowed captain privileges.

Captains are able to start the match and each new stanza when the players are ready and seated in the correct direction at their home tables.

If a captain is sitting out for a “Round”, they need to join the table, by clicking on the centre of it, in order to start it, and any subsequent Rounds.

If the **Scores** window is open, it needs to be closed to see the button for starting the next round.

In order for the round to start, both captains have to indicate readiness, and click the “Start” button (see screenshots in on page 6).

If a Captain wants to talk to the other captain, they can visit the opposite table by clicking the middle of the table. You can only do this in between rounds, before the round has started, and after all rounds are complete.

White V Brown

USEBIO Advanced Scores

Welcome all. Please sit at your home table, as indicated. The system automatically pivots the players at table 2, in the score up break.
