

## Report from Chair – March 2024

My time has been chiefly spent in supporting the Competitions subgroup, the PEST and the Congress committee. I wish to express my thanks to these team members, who have given a lot of time to promoting our County activities. As such, I will bypass details of my report since these groups have all submitted detailed reports.

Stephen has given consistent support, circulating papers, gathering reports and keeping meticulous accounts. We are looking in good shape and have made some profit this year.
