

## County Teams Team Report – March 2026

The county teams have recently completed their fixtures in the Midlands Counties Online League. The B and C teams have each won their division and have both been unbeaten. The A team have lost just two matches against the top finishing teams, and the final result brought the team into the top half of the table. The B and C team results mean that teams have been selected to represent the Midlands in the national finals.

We should also note that this is the first year that Oxfordshire has entered a nine high team into the MCOL competition and they did very well winning all three of their matches. It is a credit to all players and organisers that bridge in Oxfordshire is thriving and making a good post pandemic recovery. This is not the case in all counties and it seems that Derbyshire in particular do not plan to continue playing in the league next season.
