Instructions for Host Pairs in Olicana Online Club Rooms

Both BCL and BBO need a full set of tables, so a host pair is needed for each event.

If you are the host pair, please follow the instructions below.

For BBO

The Host Pair must to be available from 10 minutes before the event starts. Both of you must log in to BBO and find the Olicana game. Don't register at this point.

Oliver Cowan is our TD in BBO and will manage whether the host pair is needed. He will message them from BBO. Don't worry if you haven't heard by the time the event starts; if you are needed, Oliver will add you after the start.

If the Host Pair is not needed, Oliver may be able to find another Yorkshire game for them to play in, or they can continue to play in BBO outside the club room.

For BCL

The Host Pair to be in the Olicana club room 10 minutes before the event starts.

5 minutes before the event starts, one member of the Host Pair starts a table, the other one joins that table then the SSD is submitted and confirmed, as usual on BCL. If there is another half table, the system will move the pairs to form full tables. Don't start a table earlier than 5 minutes to go or you risk taking another pair's place. Don't leave it any later or you may not be ready to play in time.

If the system joins the Host Pair to a table, leaving another pair on a half table, please report this to Shiona on 07533 792 184.

Any pair joining after the Host Pair will risk not joining a full table and not playing.

If the Host Pair is not needed they can continue to play in BCL outside the club room.
