Bridge Base Online OBC League

League will run as a round robin, with each pair playing every other pair once.

The "play by dates" are for guidance only, so we do not all end up trying to arrange the same match and have fixture congestion. Matches can be played before of after the play by date.The only proviso is that all matches need to be played by the final date.

The pairs in each match to arrange day and time when to play, there are no restrictions.

Agree who will set the table up. Whoever this is needs to logon a few minutes before the others to set the table.

Each match will consist of 15 boards.

First named pair in each match are North and South.

At the end of the match North/South to send the IMP score to Brian by email. (This is displayed on the screen as you are playing so you will need to take note at the end of the 15th board).

The IMPs will be converted to Victory Points (VP) as per the table below. In essence there are 20 points up for grabs from each match. The IMP will be used to determine the split. So if NS get 15.3 IMPs then split will be 14 to NS and 6 to EW etc.

The League will be scored as 3 points for win, 1 point for draw, and where pairs are level then VPD (difference) used to separate.

15-board discrete scale

|	
10-10	0 – 1
11-9	2 – 4
12-8	5 – 8
13-7	9 – 12
14-6	13 – 16
15-5	17 – 21
16-4	22 – 27
17-3	28 – 34
18-2	35 – 42
19-1	43 – 52
20-0	53+

Additional Guidance Notes

Alerting : we should all be using Self Alerting as opposed to using Chat and your partner doing the "Alert". This is the way that BBO works and I know it is different to how we operate at the club and what we are all used to. If you are relying on partner making the alert

by chat then as the next bidder how long do you wait, you will end up thinking it is natural or making the wrong assumption and bid only to find a few seconds later a chat "alert" appears. With Self Alerting your partner does not see the alert.

To Self Alert just enter a brief description (12 14, 4SF etc) and make the Alert button go red before you submit your bid.

Undos : Within BBO Undos are allowed only mis-clicks. We have been allowing Undos for low level bidding mis-clicks but not card playing mis-clicks. Within your BBO profile you can minimize the chances of these mis-clicks happening by selecting the Confirm Bids and Confirm Cards within the Settings section of you Account. It is the individual players decision whether to allow Undo or not and no presure should be made to force acceptance of the Undo.

End of document …...... remember …...... this is for FUN
