Mathe

Used against the Precision bidding system (strong one-club openings and one-diamond negative responses). When opener bids artificial 1 club, or responder bids an artificial 1 diamond. Purpose is to enter the bidding to compete.
Note: You can use the same method against a Standard strong 2C opening.

Against a Precision 1C or Standard strong 2C opening when holding a 7-card suit (sometimes an excellent 6-card suit) overcall at the three-level if your losers total no more than:

- Six if vulnerable
- Seven if non-vulnerable

Against A Strong 1C Opening

- 1D = diamonds
- 1H = hearts
- 1S = spades
- 2C = clubs
- Double = both majors
- 1 NT = both minors

Against A Strong 2C Opening

- 2D = diamonds
- 2H = hearts
- 2S = spades
- 3C = clubs
- Double = both majors
- 2 NT = both minors
