

Did you ever wonder how our tables were repaired? Well, here's our table Guru in action.

**First, remove frame from the table.**

**Set everything up, and light welding torch. Dig the goggles!**

**Apply torch and watch the sparks fly. Well, I was warned to get out of the way, but just missed snapping a rather spectacular shower, that sent me leaping out of the way.**

**Next, a scrape down with a wire brush, allow to cool, and apply spray paint.**

**All done! Just need to put it all back together again. Neat job! Thanks Rex.**
