

About ST Pete Bridge Club Virtual Games

The ACBL has partnered with **Bridge Base Online** (BBO) to offer another way for members you to play and earn black masterpoints®.

ACBL Virtual Club Games allows your local club to create a private, online playing space just for you and your fellow club members. Only those who have previously played at the club can enter that specific club's game. (Unless given special permission)

The ACBL Virtual Club Game start times and entry fees will be set by club managers/owners, just as they would for a typical "face-to-face" game.
