

FRIDAY SUPERVISED GREEN SESSION at DERNANCOURT

Commencing in November we are introducing a separate session on Friday afternoon at Dernancourt - the **SUPERVISED GREEN SESSION**

This session will operate at a slower pace than the existing session – 18-20 boards will be played in the afternoon – compared with 27-30.

The deals will be different between the groups.

The Green Session

-will be able to seek some advice re bidding etc from the Director – who will not normally be playing.

- will have to come with a partner for that day

- hopefully let the club know that they will be attending (so that we know that the group will be large enough to function on the day)

- normal table fees will apply - \$4 Members, \$6 non-members

- monthly winners in this group will win a prize (table fee vouchers)

- there will be no Master Points and no handicaps

- the session will be manually scored (like U3A) – Bridge-mates will not be used.

- scores for each week will be posted on the Dernancourt noticeboard

- there will be no limit on how long players stay in the Green session.

We hope that the slower pace and ability to get advice will make this green section a less stressed introduction for those new to club bridge. Equally some people may wish to play in a less pressured group and still enjoy a game of bridge and catching up with friends.
