

Thorpe Bay Bridge Club Email

Email addresses used by the Thorpe Bay Bridge Club:

Email from our website for bulk and 'Find a Partner' messages

members@bridgewebsemail.com
thorpebay@bridgewebsemail.com

Email from our yahoo.com address for general and one-off emails

thorpebaybc@yahoo.com

If you are not receiving our emails you need to check a few things:

1) Have you unsubscribed to our website email service?

This may happen if you accidentally unsubscribed by marking bridgeweb's messages as junk or simply not reading them. To resolve this, go to the main bridgeweb's site (bridgeweb.com) and the re-subscribe button. This gives instructions on how to check your email status and to re-subscribe. Click on this link:

https://www.bridgeweb.com/cgi-bin/bwon/bw.cgi?club=bw&pid=display_page35

2) Have you blocked our emails?

First try section (1) above.

If that does not work, check whether you have clicked-on or entered an option on your email application to block our email addresses (listed above) or go to (3)

Note: email apps have different options for blocking. So, you need to check your specific application's method of blocking/unblocking email from specific addresses.

3) Rejected or Blocked our emails as JUNK or SPAM?

Email applications can 'decide' that emails are unsolicited or unwanted (SPAM or JUNK) So, check whether the app. has rejected our emails. Look in the SPAM or JUNK folder first. Email apps have different options and ways of dealing with 'unwanted' emails - so you need to check your specific application for instructions on how to resolve.

Examples of email application's blocking mechanism:

Hotmail has a 'Safe Sender' list where you can add our email addresses (above)
Gmail.com uses the 'Contacts' to which you can add our email addresses
Yahoo has a 'Blocked addresses' section in the settings
