

Joining a u3a tournament on BBO

To join the u3a tournament:

Under PLAY OR WATCH BRIDGE select Competitive

Under TOURNAMENTS select All Tournaments

You will see a list of all pending tournaments in the order they start (soonest first)

Scroll down the list or type U3A in the search box (top right)

The event will be called U3A Pairs

Click on the event name (not the host name) and an entry box will appear in which you type your partners BBO alias and press Invite.

Your partner will need to be signed in too and should accept the invitation to play, if they are not online you will have to try again.

You can check that your registration has been successful by clicking on the entries tab where you will find a full list of entered pairs.

Once you are registered you will be seated automatically when the tournament starts as long as you are still online.

The tournaments will be open for entries 2 hours before the start so you can enter and then go offline but please be back online and in the competitive area at least 5 minutes before the start.

Please register at least 15 minutes before the tournament is due to start. Please allow plenty of time to register if it is your first online u3a game.

If you have any problems registering, please message the host on BBO by clicking on their name.

TIP: Add your partner to your friends list via the People tab and Add Friend box at the bottom. This will make it simple to message them and to know when they are online.
