

I was brought up outside Pittsburgh, PA and have a BA in Psychology and an MBA. I started working after college in Washington DC, then moved to Boston for 10 years before landing in Central Florida (Orlando) in the early 80's.

My professional life began in banking and evolved into project management within the financial services area. Retirement in 2013 gave me time to renew my love of bridge which was instilled in me by my Mother (a life master) who taught 11 of my high school friends and me bridge in a classroom setting in our home's living room.

Bridge has become a large part of my life and I'm hoping that, as a Board member, I can bring new ideas to the club and represent all levels of players. I have participated in the Mentor Tier II program and can proudly say I am a graduate. I am paying it forward by being a mentor in the Tier I group because I realize the importance of less experienced players being able to play with more advanced players in a non-threatening environment. Our club does an outstanding job in presenting opportunities for all levels of players to help improve their game. I'm hoping that by serving on the Board, I can support this environment and give back to the game that I love.
