

Specific Regulations for Young Chelsea Women's Swiss Teams 14–15 November 2020 on RealBridge

These regulations are intentionally brief and aimed at the topics most likely to be of relevance as well as to help players from other countries who may not be used to the standard EBU regulations. For all matters not covered by these regulations the standard EBU regulations will apply.

Alerting

Screens will not be in use. Alert your partner's bids as you would do when playing face to face. As many of the foreign players will not be used to the usual EBU announcements (stayman, transfers etc) please alert any non natural bid that would usually be announceable under EBU regulations.

Any non natural bid below 3NT should be alerted. No alerting above 3NT.

RealBridge allows you to type to either opponent by clicking on the speech bubble by their name. This allows players to ask questions without their partner hearing.

Undos

Undos are allowed to correct genuine misclicks during the bidding only. No undos are allowed during the play. Undos are also allowed to correct a call after a mistaken explanation when it is still possible for the call to be changed under the Laws.

Convention Cards & System Notes

Please provide a link to an online copy of your system card at the start of each round as well as providing a brief verbal or written summary of your system.

It is permitted to review your own convention card and system notes while playing but not to delay the hand by doing so.
